- 1. The post office and telephone exchange in Adjud are housed in a two-story building located on the eastern side of the Galati-Bacau highway about 50 meters south of the junction of the highway leading from Galati to Bacau and Targu Ocna. Sketch No. 1 shows the location of the building.
- 2. The northern wing of the building houses the post office, and the southern wing with a small adjacent building houses the telephone exchange.
- 3. The engine room of the telephone exchange has two generators, each of which is driven by a 35-horsepower Diesel motor. The generators produce 48-volt DC current to charge the wet batteries of the exchange. The batteries and the building's heating unit are kept in the basement of the building.
- 4. The telephone exchange is equipped with two switchboards of 100 drops each. Presently only one of the switchboards, using about 70 drops, is in operation. The system is manual, and telephone numbers are of one and two digits.
- 5. The Adjud telephone exchange also acts as a relay station for lines from distant places. Four switchboards which amplify the signals and other special equipment for this relay service are installed in the room with the two local switchboards.
- 6. The Adjud telephone exchange was serviced until the spring of 1951 by three femals operators working in three shifts of eight hours each. In the spring of 1951 the number of operators was reduced to two who worked from 7 a.m. to 9 p.m. daily.
- 7. The chief of the exchange is a certain Stoiculescu, who is considered an excellent mechanic and electrician. Stoiculescu lives with his family on the upper floor of the telephone building. Stoiculescu, who is assisted by two

technicians who were trained by him, is in charge of all the administrative and technical work of the telephone exchange. The staff of the Adjud telephone exchange consists of two to three linesmen who maintain existing inter-city lines and construct new inter-city lines.

- 8. Since Adjud also serves as a relay station, it is often visited and inspected by various technicians from Bucharest.
- 9. Attached are two sketches:
 - a. Sketch No. 1 Location of Post Office and Telephone Exchange
 - b. Sketch No. 2 Adjud Post Office and Telephone Exchange
